PROFESSIONAL SUMMARY

Full-stack web developer with 2+ years of hands-on experience building responsive, user-focused applications using React, Node.js, and modern web technologies. Currently teaching computer science while developing production-ready web applications with a focus on clean code and user experience. Fluent in English, French and Portuguese.

TECHNICAL SKILLS

Frontend: Next.js, TypeScript, React, React Native, Redux, JavaScript, Tailwind CSS, SCSS

Backend: Node.js, Express, RESTful APIs, PHP, Python, Java, C#

Databases: PostgreSQL, MySQL, MongoDB, GraphQL

Tools: AWS, Docker, Kubernetes, Webpack, CI/CD, Vercel, Git/GitHub, WordPress, Figma

PROFESSIONAL EXPERIENCE

Coding Instructor, Code Ninjas – Vancouver, BC

Apr 2024 – Present

- Instructed 60+ students weekly in JavaScript, Python, C# and programming fundamentals
- Designed hands-on projects that develop problem-solving and logical thinking skills

Computer Science Teacher Assistant, Langara College – Vancouver, BC

Sep 2024 – Mar 2026

- Evaluated 100+ coding assignments and projects weekly in React, TypeScript, Node.js, and MongoDB
- Provided technical feedback to 300+ students across Full-Stack Development courses

QA Analyst Volunteer, TuneKey – Remote

Sep 2023 – Dec 2023

- Identified 25+ critical bugs using Postman, improving application response by 30%
- Compiled weekly test reports with UI/UX recommendations for stakeholders

EDUCATION

Diploma in Computer Studies, Langara College – Vancouver, BC

Sep 2022 – Aug 2024

- Certificate of Internet and Web Technology with Distinction
- Citation in Full Stack Web Development
- Dean's Honour Roll (3x)

Bachelor's Degree in Law, Universidade Catolica de Pernambuco – Recife, Brazil

Jan 2016 – Dec 2020

- Licensed Professional Lawyer with strong analytical and problem-solving foundation

PROJECTS

Reading Break - Book Library

Apr 2026

Next.js, TypeScript, AWS, React, Node.js, Express, Tailwind CSS, SQL, RESTful API

- Built a full-stack book library app with Next.js and Node.js/Express backend, integrating the Open Library API to surface metadata for millions of titles
- Designed a SQL-backed reading tracker allowing users to categorize books by status (e.g., Reading, Completed, Want to Read), with a RESTful API handling all CRUD operations
- Deployed and configured the application on AWS EC2, managing cloud infrastructure for a live, production-accessible environment

Infinite Thread – Tech Forum

Jan 2026

React, Node.js, Express, Google OAuth, Tailwind CSS, MongoDB, RESTful API

- Built full-stack discussion platform supporting 100+ concurrent users
- Implemented Google OAuth authentication, JWT authorization, and XSS protection
- Designed RESTful API and MongoDB schema for posts, comments, and likes
